FSURGICAL LEAD GLOVES - "LEAD FREE" GLOVES

Natural compounded latex

Powder – free

Lead- free

High tensile strength

Textured finger/palm

Maximum attenuation

Maximum tactile sensitivity

Carestream Dryview DVE Laser Imaging Film DVE 125 Sheets

Imagers DV 5700, 5950, 6950

There is even more reason to switch to

Carestream Dryview DVE Laser Imaging Film.

Our diagnostic-quality, blue-tone films last longer, improve image visibility, handle more efficiently

Extended Shelf life

Dryview Film is supported by proven

and maximize your film supply inventory.

SYRINGES & LINES

We offer a variety of high-pressure sprayers and pressure connection hoses with excellent performance and reliability. In addition, we have a full line of connecting tubing including long, spiral, straight, tee, one-way valves, double-check valves, and non-return valves to meet doctors' different needs. Furthermore, we have a wide range of consumables including transducers, inflatable devices, manifolds, paint syringes, control syringes, introducer sets, hemostasis valves, positive needle-free connectors, and vaccine syringes.

FUJI SUPER RX

High resolution

Fine grain

High processing capacity

High quality diagnostic images

Consistent image quality

Easy film handling

ULTRASOUND GEL

High Viscosity

Water Soluble

High Conductive

Non Staining — Clear in colour

Non Sticky

Slow drying

Long shelf life

FUJI SUPER HR-U

High resolution

Fine grain

High processing capacity

High quality diagnostic images

Consistent image quality

asy film handling

LED VIEWING BOXES - Light source LED, Totally flicker free

Slim line only 4cm thick

Lifespan of LED 80 000 hours

Adjustable brightness 50%

Brightness 5000 cn/m2

Film activation to switch on or manual

MOBILE APRON TROLLEY

Available in different models:

Holds 5-10 aprons. Holds 10-20 aprons.

Holds 5-10 aprons with a complete storage tray.

WALL MOUNTED APRONS HANGARS

Available in different sizes from 1 to 6 arms.

MEDICAL CONSUMABLES

POSITIONING SPONGES PS

Available as singles or set of 10.

THYROID COLLARS TI & T3

(T1)

Thyroid and sternum shield, Velcro at the back, 0.50 Pb Eq Available in normal lead, light lead and "lead-free". (T3) Velcro at the back, 0.50 Pb Eq Available in normal lead, light lead and "lead-free".

VEST AND SKIRT VI

Velcro and QRB in front Available in normal lead, light lead and "lead-free".

DOUBLE & SINGLE SIDED APRON

(DOUBLE)

Velcro and/or QRB ,0.25, 0.35, 050 Pb Eq Available in normal lead, light lead and "lead-free". (SINGLE)

Velcro and/or QRB
0.25, 0.35, 050 Pb Eq
Available in parmal lead, light lead and "le

BRIGGATE PATSLIDE

Facilitates safe and easy patient transfers.
Reduces the risk of back injury for the carer.
Hand-holes provide maximum grip for carer. Slip resistant pads increase stability. Radiolucent material construction makes the Patslide lightweight, highly impact tolerant and static insulative. NOT to be used as a lifting device

PORTEGRA 2® SUSPENSION ARM

other accessories can be attached and positioned as required. Shock-absorbing, plastic covers protect from collision damage. Internal steel cable provides safe support even after many years of service. Specially designed collar guarantees a firm connection with the equipment. Multiple load bearing categories allow weights up to 18.0 kg (39.7 lbs).

PROTECT-A-GRID

Handles on short or long axis Durable Smooth non-porous surface Curved corners Custom made for all brands

MAVIG X-RAY PROTECTIVE SHIELDS

High transmittance for best visibility. Rounded corners and edges, as well as shatter-proof material offering low risk of injury.

Safety lock, easy-to-guide handle and a specially designed MAVIG connection element provide. Great agility and additional safety. ©MAVIG GmbH, Munich

WEIGHT DISTRIBUTION CAP

Rated up to 760lbs of direct patient weight Available in clear or opaque top Available with or without handle Slip resistant Cutouts for tether

LEAD PROTECTIVE WEAR

All aprons and accessories are available in: Traditional lead, light lead and "lead free" Various sizes, colours, models 0.25, 0.35 and 0.50 Pb Eq OR combinations thereof

MOBILE APRON TROLLEY

Available in different models: Holds 5-10 aprons. Holds 10-20 aprons. Holds 5-10 aprons with a complete storage tray.

GENERAL EQUIPMENT

PORTABLE ULTRASOUND SYSTEM

ARIETTA PRECISION

A diagnostic ultrasound system with unprecedented style, is sure to fulfil your requirements. Designed to fit into a confined space, and with an image quality that will not disappoint Proven Ultrasound-Meeting your Ideal. Fit for the operating room.

Arietta Precision. A comprehensive range of compatible transducers grouped by application, scanning region and operative method, provide support for minimally invasive through to open abdominal surgery.

CART BASED SYSTEMS

ARIETTA 850

Premium Ultrasound scanner. Sense and visualize ultrasound.

Great examination precision, greater comfort, and a wide range of applications are now possible with ultrasound imaging. In response to the ever-increasing expectations of the medical profession, diagnostic equipment continuously evolves. "Image quality", "workflow" and "applications" are three keys functional areas where we have made a determined effort to refine fundamental performance, with the goal of creating the ultimate ultrasound platform. Flexibly responding to users' individual needs across the range of clinical disciplines, the Arietta 850 brings diagnostic imaging without compromise.

ARIETTA 50

The next stage in Usability.

This entry level model of the Arietta series invites easy operation from beginners through experts. Its outstanding easy to view 21.5-inch monitor and intuitive, user friendly operability will bring you to the next "stage". High quality imaging across a broad clinical range that includes abdominal, Musculoskeletal, Obstetrics and gynaecology, Cardiac and Vascular.

Lifeline AUTO AED

The one-button defibrillator

The Lifeline AUTO is a fully automatic defibrillator designed to analyze heart rhythm and automatically deliver a shock – without intervention

CWM-201A Anesthesia workstation

Integrated breathing circuit with APL valve, excellent tightness.

Replacing drive bellow is not required when operating adult/paediatric anesthesia, applied with 1 high-precision vaporizer, 7 inch screen with no dead space, Real-time detection for loops, paw, BPM, VT, and compliance. Comprehensive monitoring capabilities include ventilation, parameters monitoring, preset parameters, alarm indication, and breathing waveform monitoring. ACGO available to connect with T/Bain circuit for open operation. Yoke system with back up cylinders (A type with 11L size)

Theatre Operating Table

Can be easily adjusted as per the requirement of the patient. Used for various purposes such as treatment, recovering, rehabilitation and operation.

Premium quality

Excellent finish

Smooth operation
